FIRE AND LIFE.

CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head-offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements: for the largest life bonuses (£3 per cent per annum) ever continuously declared during 15 years by any Co.; for the enormous extent of its transactions, shewing £'00,000 in new life assurances for 1862, and a Fire revenue of £300,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income, over half-a-million sterling; and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 93 leading papers, speaks in the highest terms of this company.

The report for 1862 shews that all the property of the Co. amounting to £846,070 is real and substantial property;" the amount now exceeds one million sterling. The increase, during 14 years, on Fire business was 900 per cent, and on Life 1350 per cent.

Messrs. H. A. GREEN and Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £260,000. Life claims can be settled without reference to England. For further particulars please apply to

FRIDAY, DECEMBER 23, 1864.

EDITOR'S TABLE.

Privateers are talked of, and if we are correctly informed, are being fitted out; the matter of course is kept as a great secret, but applications for letters of marque have been made, with what success we know not.

Yesterday was in the full acceptation of the word a thorough wet day: seldom in the middle of summer do we experience such rainy weather. Many parties fear that so much rain will injure the wheat crop, but we do not think there is the slightest fear however of this as yet.

A subscriber from Pila called on us to say that at the Pasa de Ponce, on the Salado, several murders have recently been committed. A mercachifle was robbed of all his money and goods and then assassinated. Three native men have recently been murdered in the same spot. The thistles are high, and some bands of vagrant gauchos are prowling about there. Col. Machado passed through Pila on Sunday evening, with his family; bound for the frontier. The camps in Pila are in splendid condition; sheep are very fat and several good flocks are offered for sale at 35 al corte. Owing to the enormously high price of twine some of the farmers have made strings out of the entrails of sheep to tie the wool with. From this partido our subscriber tells us that not a single arrobe of wool has yet come into town. A patrol is badly wanted, as we suggested, as the camps abound with vagabonds We hope the judge will organize one.

We have at last received news from Montevideo. There has been great work going on down there, and the federal party all say that President Mitre is in peril. Flores, it is believed, will not fight Saá, but retire towards the frontier.

The new hotel at the Lomas de Zamorra is the absorbing topic of the day. We understand that over $200,000 has been already subscribed; it will be on the American style, and adapted for families, like the far-famed Long Branch Hotel in the United States. Subscribers to the stock, we suppose, will have preferential rights besides an interest in the concern.

Justice Dillon, of Moron, has sent a circular round to his alcaldes, warning them of the great danger of fire, and ordering them to use the utmost vigilance until the thistles fall. We cannot too highly praise the energy of the Moron judge, and wish sincerely some of the other justices would take a leaf out of his book.

The subscription list for the Bombay sufferers will be found in another column. Mr. Thornton requests us to say that the list will continue open at this office until Saturday night.

There is a great piece of scandal circulated about the young lady who acted as Dr. Wich's secretary on his late mission to Paysandu. It appears she has recently arrived from France. The full details about the matter we received from Montevideo, but cannot publish.

Another Indian invasion has taken place in Tandil. Our colleague, the "Pueblo," gives a detailed account of it. The loss of life and property was not very great.

The Chief of Police has issued a decree prohibiting all rows on Christmas eve. Extra guards of police will preambulate through town to keep order.

The latest novelty on the beach is, that our friend, Mr. Rivers, is about to sell out his ship chandlery and naval store. We have not heard the price paid, but rather think it must be a good round sum, as the house does a very large business.

The blockade of Montevideo, it appears, is abandoned for the present. We do not know the reason; probably the Baron Tamandaré has at last determined to attack Humaita. The blockade of Paysandú still continues, although the siege is raised. We have received a graphic description of the attack and bombardment of the town from an Englishman who was on board an English gunboat looking at the whole affair. To-morrow we will publish it.

The President of the Provincial Bank, we remark, never deigns to send any of his notices for publication in the 'Standard.' He probably ignores the fact that the English population hold more paper money than any other class of foreigners.

There is great talk about pulling down the old market in Calle Peru and building a handsome, commodious market-place on its site. We approve of the idea, and think that the sooner the old market is levelled the better for the health of the city.

Yesterday evening, notwithstanding the rain, a very amusing race between two Englishmen, on native horses, was to have taken place at Belgrano. Both horses and riders are unknown to fame, but according to the terms of the wager, no matter how the weather might be, the race was to be run, or a forfeit of $5,000 paid. The ground must have been very slippery. We have not heard how it resulted.

On Sunday the great native races will come off at Belgrano. Some of the best horses in the country are entered, and if the weather is good we doubt not there will be a great day's sport. The inauguration of the schools will also take place: the town will be illuminated, and a grand ball will be given by the municipality.

The 'Nacion Argentina' of yesterday notifies the public that the Brazilians have blockaded the Parana as respects Paraguay: there is a great want of formality in these proceedings here.

The same colleague publishes a very severe article against the bank, and makes some very heavy charges against the directors. We leave it to our friend Mr. Rom to defend the board.

The mouth of the Guazu is blocked up by Brazilian gunboats; every vessel that passes is overhauled and her papers scrutinized. In the Uruguay the river is literally crowded with these gunboats. People wonder that they are kept idle in the river when they ought to be so busily occupied up about the Tres Bocas. Some of the Paraguayan steamers are said to have come down the Paraguay and passed up the Parana. The people in Corrientes, although opposed to the Brazilians, would like to see them up the river, as it would cause a stir in the markets and the Brazilians are, generally speaking, very good pay.

Owing to the increased number of deaths by drowning, a charitable Argentine has just published a book on the art of swimming, price $15, for sale on the mole-head; the instructions are very explicit, and five lessons with the book in one's hand suffices to make a perfect swimmer. We have not seen the book, but suppose the title of it is "Drowning made easy."

Mr. Rom's subscription list for the Retiro sufferers is published; we remark that an English house is the largest subscriber; the brokers only gave fifty dollars each.

Part of a very fine iron bridge is at present being put together at the Once de Setiembre station. We suppose that this bridge is intended for the Villa de Mercedes extension. Mr. Allen, the engineer of the Western railway, has just returned from Rosario, where he has been inspecting Mr. Wheelwright's guage and rails, both of which he highly approves, and means to adopt on the Chivilcoy extension.

The Montevidean Government, it is said, purposes selling by public auction the fort of San José, and, it is thought it will realise one hundred and fifty thousand Nat. Dollars.

The steamer Tevere, being in danger of seizure, was officered and manned by the Italian commander of the gunboat. The Captain of the Tevere is still on board the gunboat.

Minelli has at last started his Italian newspaper in Montevideo; it is called "La Italia."

Waldino Urquisa is creating the greatest commotion in Concordia: he openly boasts that his father is going to wake up and startle the Argentine world.

NEWS FROM MONTEVIDEO AND THE RIVERS.

The steamer Concordia, armed by the Brazilians in the Uruguay, arrived in Salto on the 11th, with an officer of Flores' badly wounded, who expired two days afterwards. Every gun in Salto has been removed, and, according to the 'Reforma,' the garrison consists of 25 cavalry and 75 black and mulatto infantry. On the same authority we learn, that with the exception of the marines landed from the gunboats, there is no Brazilian army whatsoever in the districts of Paysandú and Salto. Netto could only bring from the frontier 500 men, all lancers. The Brazilians, it appears, find the greatest difficulty in raising an army, and they as yet have not 3,000 men in the field. The sacking which has been going on at the shops and houses outside of Paysandú, is represented as frightful; and many of the stolen goods have been sent up in small boats to Salto for sale: pieces of calico at 6 reales, and pipes of wine at 5 and 6 patacons. The town of Salto is guarded at night by a company of Italians, who get an ounce a month. All the goods in the Custom-house, and several estancias and carts laden with wool have been embargoed, and are being sold off for account of the commander.

The clothes and food supplied by the Tevere to the families in the islands in front of Paysandú were insufficient, and more had to be obtained from Entre Rios. Bernabe Silva has been banished for life for carrying despatches from Flores to Tamandaré.

The 'brazero' which was used for burning the treaties on last Sunday, was presented to the Government by Don Manuel Pereira, and has since been placed in the Museum.

Exchange on England, 50¾, 51, per National dollar.

Do. on France, 82½ to 83 per ounce.

French and English debt, 52 to 53.

Home debt, 45.

Discounts, ⅞ per cent. per month.

English Bank allows 6, and charges 12 per cent. per annum.

The first news of the Bombay fire was brought to Montevideo by Nemecio Lujan, the coastguard at the Buceo. It was rumoured that a body of about one hundred Brazilians landed the other night at Higueritas for the purpose of getting cattle for the use of the gunboats at the mouth of the Guazu.

The French Minister in Montevideo, on learning the particulars of the heroic defence of Paysandú, despatched a French surgeon to attend the wounded of the garrison, and notified the Government that the half of the medical staff at the station were at the disposal of the Government for the same purpose.

The loan which the saladeristos offered to the Government not having been made up, the Montevidean Government has passed a decree taxing each animal killed, which will in the end come out of the estancieros' pockets.

A letter published in the "Reforma" states that the Brazilians ran short of shot and shell, and applied to the Argentine Government for a supply, which was at once granted. That also 220 beds and over five hundred bombs were shipped by private parties for Flores' army.

IMPORTANT FROM MONTEVIDEO.

THE TREATIES BURNT.

I wrote you by the last trip of the Rio de la Plata, and gave you the particulars of the destruction of the Bombay, but as I have not seen it published in the "Standard" I suppose it was late in coming to your hands. Since then I have conversed with the Captain and many others of the lost ship, and am able to give you a few more particulars. The courage and subordination of the officers and crew is highly spoken of. About forty of the marines, who were working hard away at the pumps below to try and flood the powder magazine, were all destroyed. Orders had been sent for them to desist and save their lives, but as it did not come from their officer they would not leave their posts. Another order was sent and the poor fellow never returned the upper deck fell in and buried all these brave fellows. The Rev. Mr. Adams preached a sermon on Sunday last, and alluded to this dreadful disaster in the most impressive way, and appealed to the congregation to come forward and help those who were dependent on these brave fellows. The appeal has not been made in vain. There was a great many of the officers of the lost ship in church, besides the Admiral and lady. The officers speak in the highest terms of the kindness of the French and Italian naval officers, who treated them while on board in the most noble manner. The French Admiral went on board, with a boatload of clothes, etc., and distributed them himself amongst the shipwreckd people, and the other officers followed his example, acting in such a kind, gentlemanly manner as to make the gifts more welcome. They all embarked yesterday on board the Herschell, and are on their way now to England. The total number lost is 91. Not one of the bodies of the lost has as yet been recovered.

The subscription for the relief of the widows and other relatives of those who perished is meeting with great success, and I have no doubt they will realize £5,000.

The subscription for the relief of the families impoverished by the bombardment of Paysandú has reached a fabulous amount; more than $30,000 have been subscribed. Mauá & Co., with their usual generosity, have subscribed $2,000. The Masonic fraternity have taken the matter in hand and will not be wanting in liberality. There has been a commission formed to distribute the funds, composed of a representative from each nation. Mr. Robert Andrews has very properly been selected to represent the English interest; if the other persons are of the same stamp, the fund will be well disposed of. They leave this afternoon on their voyage of kindness.

The Grand Fandango of burning the Treaties of Brazil came off on Sunday. A grand triumphal stage was erected in the Plaza, outside the market, adorned with Oriental and Paraguayan flags. A small copper urn on a table was the receptacle of the ashes of the treaties. They had much trouble to make them burn, and the smoke had a very *disagreeable smell!* They kept a book open to register the names of those who wished to sign, as showing their approbation, or, in other words, to write themselves down as jackasses. This act is about as brave as the destruction of the steamer Villa del Salto. I heard a person demonstrate it by relating what occurred when he was at school: "One boy who found he was not strong enough to whip another, said, 'at any rate, if I cannot *lick* you, I will make up faces at your sister.'"

MONTEVIDEAN SUBSCRIPTIONS FOR BOMBAY SUFFERERS!

To the Editors of the Standard.

Gentlemen,

As you always take a lively interest in furthering the welfare of British subjects, I take this method of informing you of the proceedings of the Committee for raising a subscription for the relief of the widows and dependent relatives of those who perished in the conflagration of H. B. M. line of battle ship Bombay on the 14th of December. The Committee met on the evening of the 16th, at the residence of Mr. Edward Crane, as follows:

Thomas Tomkinson, Charles M'Lean, J. C. Ruding, and Robert Andrews, and after wa; added Edward Crane and Peter Bourse; Mr. Tomkinson was appointed Chairman, J. C. Ruding Treasurer, and Peter Bourse Secretary.

It was decided to circulate a subscription list, headed as above, Mr. H. Scott Good, and Thomas Tomkinson jun., were appointed a sub-committee, to collect among the clerks. The first day the list went round more than $2000 was subscribed. There is one list stationed at the English bank, with Mr. Ruding the treasurer, where voluntary subscriptions are received. The English residents in the interior have also been applied to by written communication, so the work goes on bravely. There are many widows and children left by these noble fellows who perished, besides aged and infirm relatives. I hope the English residents in Buenos Ayres have taken the matter in hand, and followed our example; they cannot be too generous The number who perished in the Bombay is 91.

I remain yours truly,

A MEMBER OF THE COMMITTEE.

Later—I have just seen the list, and find there is already $3,500 (patacons) subscribed.

CAPTAIN CAMPBELL.

On board H.M. steamer Stromboli.

Montevideo, Dec. 18th, 1864.

To the Editor of the 'Reforma Pacifica.'

The officers and crew who have been saved from Her Majesty's unfortunate ship Bombay desire to express publicly, by means of your paper, their gratitude towards the commanders, officers, and crews of the vessels who, during the lamentable burning of their ship, hastened to their rescue.

The boat 'Chiche del Este' of the pilot, Francis Soler, Peter Thompson, master, was the first to arrive, taking a number of persons from the ship's boat, which was in danger from overloading.

The brig 'Anna' from Hamburg, and 'Water Lily' from New Brunswick, the French ship 'Fenelon' from Havre, and the steamer 'Rio de la Plata' received the people from the boats, using every endeavour to approach as soon and as near as possible, and offering to remain by the burning ship as long as might be necessary.

Once on board these vessels we received clothing, the greater part of us being nearly naked, food was generously provided for us, and we received every demonstration of kindness and sympathy.

In the name of the surviving officers and crew I have the honor to subscribe myself Yours very truly,

COLIN A. CAMPBELL,
Captain of H. M.'s late ship Bombay.

CHRISTMAS EXAMINATIONS.

ST. PATRICK'S COLLEGE, FLORES.

On Thursday the Christmas examinations at this college took place. The college building was decorated with Argentine, Irish, and English flags, and an excellent band of music, provided for the occasion, enlivened the proceedings by some stirring airs.

The 11 o'clock train from the Parque took a select number of visitors to San José de Flores, who were received at the college by Dr. Fitzsimons in full academic costume.

At 12 o'clock the examinations commenced in the school-hall of the college. At the head of the room sat the Juez de Paz Sr. Castro; the Military Commander Sr. Ramos; the parish priest of Flores, Rev. Mr. Ramos; Dr. Kirwan from Buenos Ayres, and the Rev. Canon Fahey. On either side of the room sat the visitors, amongst whom we observed the Rev. Mr. Cullen, Mr. Gerome Tormy, Mr. Thomas St. George Armstrong, and several others.

When the band ceased playing Dr. Fitzsimons, the Director of the College, rose and read the programme or order of the day, as follows:—

ORDER OF THE DAY.

Science, Geometry and Algebra, Natural Philosophy.

Laboring Forces, Falling Bodies, Paralellogram of Forces.

Mechanical Powers.

French, Latin, Geography and History.

Debate—Question—Is capital punishment justifiable?

Lunch.

Spanish oration, French oration, English oration.

Mr. Edward Tormy then came forward and acquitted himself with the greatest credit in geometry, undergoing a close examination from Dr. Kirwan, Masters Fitzsimons and Suffern following.

In Natural Philosophy Master Tormey evinced not only great talent but showed that he had a taste for the science; his definition of the lever, his mathematical accuracy in delineating horse-power would have done credit to a student of any of our colleges at home.

The French classes acquitted themselves very creditably also, but a native young gentleman named Elias decidedly deserved the prize for pronunciation; passages from that far famed school-book, 'Telemachus,' were ably translated by Messrs. Suffern and Tormy, who seemed to have omitted nothing in preparing for their examinations.

The Latin class next followed and a little native boy named Juan Borbon astonished the examiners, by the correctness of his parsing and traslation.

In Geography Master Tormey again took the lead, and we cannot too highly praise the answering of Master Suffern under the scathing examination of the Rev. Mr. Ramos and Dr. Kirwan.

History, which is such a useful and important branch of a boy's education, seems to be well attended to in St. Patrick's College. Master Fitzsimons gave the genealogy of Queen Victoria with a correctness which would have astonished any friend of the Pretenders and Master Tormey proved that he was intimately acquainted with the period of William the Conqueror.

Probably the most interesting part of the day's proceedings was the juvenile debate on the abolition of capital punishment. Mr. Armstrong took the chair. Master Fitzsimons opened the question by a well-delivered speech; Master Tormey replied, and betrayed a self-possession in the cool manner in which he spoke hardly to be expected in a lad of his years. Master Scully and Master Murphy also spoke to the question, and concluded their speeches amidst great cheers. At this period of the proceedings we were forced to leave in order to catch the 2.30 train. Several other young gentlemen followed in the debate whose names we hope the director will furnish us.

A splendid dejeuner, which was laid out in the ante sala, was to follow the termination of the debate, the merits of which we have no doubt were subsequently discussed.

We confess that we were greatly surprised not only at the proficiency of the boys, but at the neat and orderly arrangements of the college. When we beheld genteel, well dressed boys, sons of our fellow countrymen in the camp, competing for preferment in the sciences and classics, we felt indeed that the future of the Irish race in this country could not be doubted.

To fully appreciate the great good which this college is doing, it is necessary to remember the state of the children of Irishmen previous to its inauguration. We do not wish to make any harsh remarks, but we must say that the worst place on the face of the earth for rearing children is in the camp. Dr. Fitzsimmons's College should not be regarded as a private enterprize, it is, we hold, an Institution, and should and must be supported. Decorated with diplomas of the highest character, and possessing an experience of many years as head master and director of one of the leading schools in Ireland, Dr. Fitzsimmons has a preeminent right to be regarded as one of the first masters in Buenos Ayres. Irishmen should be proud to have such a man to direct the education of their children, and we do most unhesitatingly say that with such a college in the country, parents have every opportunity to make their sons practical, well-educated young men.

THE BOMBAY VICTIMS.

Fourteen bodies, victims of the dreadful conflagration that devoured this magnificent ship, have been found at the foot of the Cerro. The British Hospital Commission immediately sent to have the bodies brought in. The officer who we said had been found on the Playa de Ramires, is the second surgeon, Mr. Smallhorn. The number missing yet are 91.

BEARINGS OF THE WRECK OF H.M.S. BOMBAY.

Mount light (Cerro) N. 65 deg. W.

Flores light N. to N. ¼ E.

The bearing of Flores, taken just before the fire, was north, but as the ship drifted a little to the westward afterwards, the bearing may have altered slightly. COLIN A. CAMPBELL.

Captain late H.M.S. Bombay.

THE PAYSANDU SUFFERERS.

To the Editors of the 'Standard.'

Gentlemen,

The suffering families of Paysandú, and the heroic garrison of that town, must not be forgotten. I send you two ounces, and trust that some others of my fellow-countrymen will respond to your call in this behalf.

I am, Gentlemen,

Yours respectfully,

JOHN SHAW, Calle Venezuela,

THE ROYAL FAMILY OF BRAZIL.

Twenty-one years have elapsed since the Prince of Joinville sought a bride in the tropical empire of Brazil. There, descendant of the House of Braganza rules over a peaceful and progressive empire. The present Emperor of Brazil is distinguished by his personal beauty, which he legitimately inherits from his father, Dom Pedro 1.; but he is far more remarkable for his great mental endowments and his love of study. His mother was Donna Leopoldina of Austria, the sister to Marie Louise, the second bride of Napoleon 1.

The marriage of Dom Pedro II. with the Princess Theresa (Austro) of Naples resulted in the birth of four children, two sons and two daughters. The sons died in infancy; the Princesses have grown up into full-blown and beautiful womanhood. It was natural that husbands for Donna Isabella—the heiress to the throne—and for Donna Leopoldina should be sought amongst the princes of Europe. The choice has fallen upon the Count d'Eu, eldest son to the Duke of Nemours, and upon Prince Louis Auguste de Saxe-Coburg-Gotha. Both are grandsons of Louis Philippe.

Donna Isabella, the heiress to the throne of Brazil, was born at Rio Janeiro on the 29th of July, 1846, and was consequently eighteen last July. She is tall, finely formed, and fair. Donna Isabella is a blonde, in this respect taking after her imperial father, who inherits from his Hapsburg mother fair hair and blue eyes. The education of the Princesses has been the object of the constant and personal attention of the Emperor. While the best of professors and tutors have been employed, the Emperor, notwithstanding many cares of state, has brought his ripe scholarship to bear in the instruction of their Imperial Highnesses. He is master of six living languages, and is noted for fluent conversation and the acquaintance of their literature, while for mere reading there is scarcely a modern tongue of Europe with which he is not acquainted. With the Latin, he recently informed one of our correspondents, he is as familiar as with his own tongue; to Greek and to Hebrew he has devoted great attention. His Majesty, according to the testimony of eminent naturalists who have visited Brazil, has always taken the deepest interest in physical science, especially in chemistry. Under such a father have the Princesses received their education.

It is said by those who have long been near the Imperial Princess, that she is a person of great judgment, and one who inquires into the reason of things, who weighs, deliberates, and balances every question before making her decision. Such qualities are most needful for a constitutional monarch.

The scarcity of paper-money still continues, and loans for short periods were made at 27 per month. Gold is selling, merely to get paper to meet the exigencies of the moment. Politics are beginning to be greatly discussed on the Bolsa, and strange rumours were circulated as to President Mitre and Sor. Paranhos, the latter appearing to become impatient, and demanding explicit answers from the Government, so that the Brazilians would be free to act with the Montevidean and Paraguayan Government as best they thought fit. Sor. Paranhos' offers of men, money, and arms to Pres. Mitre could not be more generous. The mercantile community begins to feel alarmed at the extraordiary complications, and the imminent danger of a general war. The brokers laugh at the politicians, and say, with much reason, that if even the Paraguayans, Brazilians, Blancos, etc., were to invade us, they would not bring us paper money, which is now so much required.

In exchange on England we notice £6,000 done at 49½, and several smaller bills at 49¼. Some second class passed at higher rates.

Owing to the muddy state of the plazas, and constant rain, there were no sales of wool to-day.

A large quantity of gold arrived per Rio de la Plata from Montevideo: the most of it found its way to the Bolsa before 2 o'clock.

30,000 National Bonds were sold to-day, deliverable on the 20th of January, at 33.

CHARTERS.

We heard of the following:

Italian brig Orazio Primo, to load in the Uruguay; hides and tallow, 45s.

British brig Margaret Atherton, to load in Buenos Ayres for Antwerp, with tallow, at 45s.

Dutch barque Alide, to load in the Uruguay for orders, with wool at 42s. 6d.

British brig Onda and Flor del Plata, to load here for Antwerp; dry hides at 80s., and bales at 37s. 6d.

Freights generally very brisk, and several charters about to be concluded.

MARITIME NEWS.

The English barque Wild Wave, from Swansea to this port, grounded the 13th inst. on the English Bank. The English war-steamer Spider, seeing her in distress, went to her assistance, but she was so fast aground that she could not be got off. The Spider cut two steam cables trying to do so. The rise in the river yesterday caused her to float again; she came into this port with the water gaining in her hold 9 inches per hour.

SHIPS SPOKEN AT SEA.

The French barque Prim, Captain Gangon, which came to this port on the 18th from Bourdeaux, spoke the French ship Galsonde, on her way from Havre to Valparaiso, having been 58 days at sea in lat. 25 deg. 43 sec., long. 6. All on board were in good health.

The French barque Laurence, Capt. Miguot, arrived on the 18th from Liverpool; spoke the Anna on the 17th inst., 200 miles near the E.N.E. of Lobos.

The English brig Regina, arrived yesterday in this port from Liverpool. On the 30th of November, in 20 deg. N., 25 deg. W., she spoke the English barque West, on her way from London to Singapore. All the crew were in good health.—*Telegrafo Maritimo.*

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1863.

Pp. Mauá and Co.
WILLIAM LESLIE

CONDITIONS.

Second—The interest allowed is six per cent. (6 p ⅌) per annum, which is liquidated ever six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

TOBACCO de la PALMA,

Is an article entirely different from any other in present use, and solely manufactured by the undersigned at their Steam Tobacco Manufactory.

Containing no Paraguay Tobacco it is free from that peculiar bitterness usually encountered in Tobacco heretofore manufactured in this country for "pipe" use, while its strength is comparable with that of the American Tobacco.

Being nicely cut, it prevents this unnecessary trouble to the consumer, and packed in "tins," of convenient size with adjustable covers, there is less to fear from drying than with other Tobaccos. Two very important considerations, particularly with those residing in the camp. It can, however, be obtained in packages of 1 lb each.

At the manufactory can also be found Tobacco fuerte-colorado for cigarillos, and Tobacco Frances of the best quality at exceedingly low prices.

The "Tobacco de la Palma" can also be purchased at the following well known establishments.
